

People's Liberation Party

presents

Heroic Guerilla Che Guevara Lives in the Revolutionary Struggle of the World's Peoples

Speakers

**Ambassador Ernesto Gomez Abascal
Embassy of the Republic of Cuba in Ankara**

&

**Leader of People's Liberation Party
Nurullah Ankut**

People's Liberation Party had held a Commemorative Meeting in Ankara/Turkey on 6th October 2007 called 'Heroic Guerilla Che Guevara Lives in the Revolutionary Struggle of the World's Peoples on the 40th Anniversary of His Being Murdered' in which Turkey's Ambassador of Cuba Ernesto Gomez Abascal and the Leader of People's Liberation Party Nurullah Ankut had participated as speakers. This book consists of the talks in this meeting.

Second Edition

June 2008

**The Deputy of General Secretariat of Liberation Party and
Ankara Province Minister Comrade Sait Kiran's
Opening Speech**

From the country of Comrade Castro, waving the flag of socialism in the world strongly, Ambassador of Cuba, Comrade **Ernesto Gomez Abascal**, welcome...

(Applause...)

Representative of Hugo Chavez's country, The Bolivarian Venezuela Republic, the nightmare of the American Imperialism, which thought world is a thornless rosarium for her after the collapse of the Socialist Bloc, **Comrade Marbelis Linares**, welcome...

(Applause...)

Distinguished Guests, Comrades!

We are opening our **Commemorative Meeting** named '**Heroic Guerilla Che Guevara Lives in the Revolutionary Struggle of the World's Peoples on the 40th Anniversary of His Being Murdered**'.

I salute you all on behalf of my Party, People's Liberation Party.

(Applause...)

To talk about Che in a word, one should say he is a real man who gave everything of his except his humanity for the salvation-liberation of peoples, liberation of humanity.

(Applause...)

In a short period as 39 years-a short period considering the life span of mankind - he made the greatest sacrifices that could ever be made for the liberation of humanity; he showed the elevated values to humanity and to this end he threw himself into struggle, in his own words, for a nation whose flag he wasn't born under, for a nation he didn't belong to; he took part in the Liberation of Cuba as a second man after Comrade Castro; after coming to power he didn't content himself with this, he threw himself into struggle for the Liberation of Congo in Africa, one of the farthest places to Latin America and while he was struggling again in a country whose flag he wasn't born under, for a country he didn't belong to, in Bolivia, for the liberation of Bolivian People, he was murdered by the imperialist forces...

Thus, Comrade Che has been unforgettable in the conscience of all people in the world. He became immortal. How happy he is!

(Applause...)

Now I invite you to stand at attention for a minute to show respect to Memory of Heroic Guerilla Che Guevara.

(We Give Our Regards to Those Who Died Before Us, We Give Our Regards to Those Who Died While Struggling!)

Comrade Che lives and struggles in the Revolutionary Struggle of The World's Peoples.

(Applause...)

Distinguished guests, before initiating the program our friends want to give a right warning. Please, turn your phones down or turn them off.

(Poem and music concert... A slide show...)

We thank our young friends for their excellent work.

Distinguished Guests, Comrades,

Let me give you some information about the flow of the program. Now, esteemed Ambassador of Cuba **Ernesto Gomez Abascal** and **People's Liberation Party Leader Nurullah Ankut** are going to make speeches to commemorate Comrade Che. Then, we will have a break for half an hour. After that our estimable **Folk Music Artist İsmail Hakkı Demirciođlu** is going to address you.

I invite esteemed Ambassador **and** our **Party** Leader to the stage.

(Applause...)

Comrade Sait Kıran: We had organized a conference called '**The Left Winds Blowing from Latin America are Signs of Awakening of People**' in which esteemed Ambassador **Ernesto Gomez Abascal** and **People's Liberation Party Leader Nurullah Ankut** participated in Ankara on 18th March 2006. Derleniş Publishing collected speeches of this conference in a book. They asked us to give both esteemed Ambassador and Leader of the People's Liberation Party one copy. I wish to give them in the presence of you.

(Applause...)

Now esteemed Ambassador is going to address you.

Turkey's Ambassador of Cuba Comrade Ernesto Gomez Abascal's Speech

I thank **esteemed friends of People's Liberation Party** for organizing such a grand program.

It's really a great honor for us to be able to be here together with you.

Che is One of the Greatest Symbols of Justice and Human Honor

I thank you very much for giving us the opportunity to deliver you a speech one more time and give you the message of Socialist and Revolutionary Cuba resisting the attacks of the strongest empire just opposite our coasts for fifty years.

It's necessary to mention an example of one of the greatest symbols of justice and human honor which made history to become apparent as the fruits of the revolution struggle carried out in Cuba. I'm talking about **Che Guevera**, who was murdered after being captured as wounded on a 9 October day forty years ago.

We have learnt right in these days that a Bolivian NCO called Mario Teran, who fired the gun to end Hero's life for executing the orders of USA Central Intelligence Agency (CIA) and who is an old man now, has been operated from his eyes by Cuban doctors on duty to cooperate with sister South African people.

This event is a humanity lesson for people thinking only destruction and crime. As for today, hundreds of Cuban people are in Bolivia in order to help with the establishment of a new country. The seeds of Che in this country bear fruit owing to lengthy struggles of people.

And it bears fruit in other countries where they've started to reap the reward of struggles against the hegemony of the United States of America, against lawless and traitor oligarchy and against injustice.

This would be the best commemoration just when his revolutionary image is becoming gigantic and he is being exalted in front of the ones who tried to kill him and when he rises strongly in peoples' conquests, on the 40th anniversary of his being murdered.

His clear and definite mind conveyed in the long resistance of Cuban People against an imperialist enemy that can be presumed as 'The Omnipotent God', constructed and opened the way of liberty of the other peoples. And he is still encouraging for the same goal and continuing to be a model of struggle to attain a better and juster world.

Cuba has resisted and is going to do the same in spite of the continuous offensiveness of her Northern neighbor pleading lies such as 'struggle against terrorism', 'returning to democracy', and 'human rights' as a mediatic weapon in order to impose her single idea and to be able to despoil resources of our countries and establish her own hegemony and domination.

Draft resolution demanding to lift the economic blockade which the USA imposes on my country is going to be put to the vote in the General Assembly of the United Nations once more on 30th October. Just the same as recent years and as usual, all the International Community will support Cuba's demand, to which only the USA and Israel oppose.

This situation shows the prestige of Cuba, carrying out the General Secretariat of Non-Aligned Movement Countries and how the policy of American government has fallen into disfavor.

USA Wages Dirty Wars and Tortures Against People

In order to attain their goals, they not only impose blockages or economic pressures but also make preventive wars, invade countries, bomb civil people, establish concentration camps as they invaded bases illegally in

Guantanamo, kidnap innocents and throw into secret prisons, torture and give all kinds of damage. What troops in Iraq do everyday, the support they give to Israel to commit genocide over Palestinian People, and threats of attack on Iran are the most recent examples.

Despite the fact that strong Press Institutions keep up appearances, it's clear that they're the ones causing terror and performing it. World's People are aware of this fact.

Cuba has been enduring this penal policy since she accomplished a socialist and independent revolution. Fascist groups directed by American governments and having the support and protection of them have executed all kinds of terrorist attacks on our people.

We have been exposed to their landing of mercenary, dirty wars, assassinations, all kinds of sabotages, biologic actions and terrorist attacks causing death of our 4 thousand people, injury and impairment of ten thousand people and also 90 billion dollars economic loss.

The USA Has Arrested 5 Cuban Heroes Unjustly

In order to defend ourselves against this terrorist policy, 5 Cuban young had been working in Miami-Florida to gain information which will help preventing new attacks. As a gain of this work Cuba Government submitted the proof of these terrorist activities, which can as well threat the security of American citizens, to American authorities.

For all that, authorities arrested the 5 Cuban young instead of arresting the terrorists moving freely in American territories. And those young were subjected to stand trial at a lawsuit in which violation of laws are common, in an atmosphere where hostile feelings are raised, affecting the impartiality of justice.

None of the 5 Cuban were carrying gun. None of them resorted to violence. They hadn't seized any secret files which can affect security of the USA. There is no proof about their effort to reach information on the USA's Armed Forces. Nevertheless they have been accused of espionage.

5 Cubans when trialed openly declared that they had worked to prevent terrorist attacks carried out in our country. They are accepted as people who struggle against terrorism.

The authorized people of this country, full of feelings of political revenge, deriving pleasure from giving harm to those who will not be able to support themselves, have sentenced them to long years of imprisonment. They have been kept in single rooms. Their right to see their families has been refused for two years. One of them was sentenced to two lifetime imprisonment, the other to lifetime confinement and the others are sentenced to long years' imprisonment.

This illegal trial was appealed by defense lawyers. The trial, in which two judges took part was executed in order to be looked into. Last trial, executed in last August haven't been concluded, yet. It is required to annul the latest trial. Lawyers proved that this trial was held by violating legal principles and norms countless times. We are waiting for conclusion. But we aren't labouring under a delusion of American justice.

For this reason, it is necessary to start an international campaign to make a plea to set free the 5 Cuban by creating a greater influence in recent months. It's important that international public opinion, especially the American public opinion, know thoroughly the illegitimacy and demand to be just.

According to the USA They Are the Warriors of Freedom Who Make Terrorist Activities Against Cuba

While terrorists are strolling around Miami streets and in other cities, there are 5 Cuban young, who have been kept in prison for 9 years accused of struggling with terrorism.

The most famous but not the only actions against Cuba are what Posada Carriles and Orlando Bosch did. Both of them are accepted as Bin Laden of the West. They have a record that no one can compete with them in respect of guilt. They have committed crimes such as exploding a civilian plane belonging to Cuba Airway with bomb, assassinating progressive Latin American people, sabotage actions intended to harm Cuban economy, actions with bomb in the borders of the USA, taking part in dirty war in

Nicaragua and in suppression acts against leftist political movements and parties in Latin America and many crimes suchlike.

But those who make all these are good terrorists. As a matter of fact, there are 'good terrorists' and 'bad terrorists' for American authorities. According to authorities in Washington their own terrorists are warriors of democracy and freedom. And patriots who struggle with external attacks for their freedom, yes they are real terrorists.

Countries resisting their dominance are ignoble countries. And they are in the list of candidate countries to be bombed and destroyed.

Comrades, friends,

Cuba is grateful to all who assisted the struggle with terrorism that Cuba can never back out and raised voice for 5 patriots imprisoned unfairly in America.

Cuba is going to continue struggling against war and terrorism for peace, for independence, freedom and real democracy, for development, justice and honor, standing by all peoples, believing cordially that a better world is possible.

And today we, like Che, say : '**Always towards victory**' .

(Slogans... Viva Cuba, Viva Socialismo...)

People's Liberation Party Leader Comrade Nurullah Anku't's Speech

Dear and Honorable Comrades,

It's such a great honor to commemorate a hero like Che, together with Comrade Ernesto Gomez, esteemed ambassador in Turkey of Cuban people defending Socialism and Proletariat Internationalism like Che without compensating and stepping back, decidedly, bravely and manfully in the world especially after the collapse of Socialist Bloc; with representatives of Comrade Hugo Chavez, who declared that he was a learner of Fidel, Che, Camilio, Raul and he would keep going their way all along his life.

(Applause...)

**Che Was a Militant Who Devoted Himself to Cause of
Liberation of Humanity, He Was a Warrior of Socialism!**

But this is our right, comrades. This is our right in Turkey. Because we are the representatives of a movement that continued the struggle of Hikmet Kivilcimli, who took up Proletariat Socialism in 1921, until today manfully, honoured and decidedly!

(Applause...)

And as I always say, repeating it once more: We are the sole movement that backs up everything what we have said and what we have written since 1921.

Poet **Atilla İlhan**, whom I like as a poet but not as a revolutionary says:

**The words we carry in our hearts
Like a loaded gun
Those words that uttered once
For we are hanged**

(Applause...)

Our Master Kıvılcımlı and Che lived and Fidel has also lived properly to this motto:

40 years ago, Che, on 8th October in La Higuera Village, his hands tied from the front, he spit mucus out to fascist Colonel A.Selich's face when he was tried to be questioned by A. Selich and his torturer butchers:

'Officers are coming back to try to get information about deserter guerillas at about nine o'clock p.m. after they have dinner. There is a wall in front of them. For a moment, Andres Selich, seizes Che's beard with such a violent anger that, a handful of it remains in his hands. And as a response he is slapped by Ernesto which he delivered with his tied backhand. After that Che's hands are tied from the back.' (Jean Cormier, Che Guevara, p. 405-406)

In short, his heart didn't even beat a little faster than his daily rhythm even when he was at death's door. He looked at his murderers' faces with a derogatory and disdainful manner until his dying breath.

Our Master Kıvılcımlı had never got flurried when monsters hedging around him were torturing him in torture rooms. Torturers got flurried. They overturned the hot brazier full of cinder because of their flutter and bewilderment. And the wooden floor of the room caught fire. 'We're gonna burn the station' they said hastily. Master Kıvılcımlı said 'Do whatever you do, bastards!'

In short, comrades, **in order to be a hero, a man is to be courageous.**

You may not need to be so courageous to be a scientist, an artist, a simple bureaucrat.

But if you put your heart to people's struggle, if you are in a battle against a country which created fascist dictatorships in various countries since 1950's, which conducted tens of occupations, slaughters, you are to have a heart as Che, Fidel, K1v1lc1m1h.

As we say:

'Courage is a homeland for us. It is a homeland in which our ideals, humanity, honour take shelter. If we don't owe it, we can't preserve them.'

You know, Hz. Ali, the caliph who had defended the Primitive Socialism the most actively, said:

'If you submit to injustice, you lose your honour together with your right.'

Yes. You can never submit to injustice. You can't step back! These heroes lived in this way all through their lives. Because of this, peoples all over the world, let them be friend or enemy, have to remember them with respect.

Even the USA's servant Bolivian Dictator Barrientos, who murdered Che, had to make a declaration after his murderers executed the slaying: **'The World has lost an idealist.'**

Even his Commander of Armed Forces fascist General Miraf Lores Ovando had to say:

'Che is going to be memorialized as a hero all over the world.'

Che was such a courageous, altruistic struggler who devoted himself to the welfare of others, he was a soldier of Socialism!

On the other hand these inglorious men declared at first: 'There has been a clash between the Marxist guerillas and the military troops; there are casualties in both sides. The Commander of Guerillas Che Guevara is

among them.’ And they hoped that their dishonest lies would be believed and their brutality would be concealed. These cowardly men intended to say: ‘Che was a good man. We wouldn’t want his being dead, either. Unfortunately he died in a clash.’ Thus, they tried to parade themselves as innocent people but not as butcher cowards. Of course, they couldn’t dare to accept the responsibility of murdering Che cowardly. As we always say: Traitors and cruels are coward.

Can you imagine ,comrades?..

They execute the commands from Pentagon, Washington like servants and on the other hand, they do not help themselves making such announcements.

Che: A Real Man

Che had never been concerned with himself. He wanted to serve people as a scientist, as a researcher even in his early adolescence. He chose such a way. Later he took a journey to Latin America by his motorbike because of his traveling interest when he was a medicine faculty student. And this was a milestone in Che’s life. He witnessed that peoples were bewildered... Enslaved... Exploited... Taken as beast of burden... Children were dying and dying due to hunger, lack of medicine and doctors...

Che, his heart full of human love, forsook being a scientist, being a researcher. ‘From now on I’m supposed to serve these people at least as a doctor’ he said. ‘I must try to stop the pain of these people doing my best.’

Can you think of it, Comrades?

A man proves his or her real humanity when facing a person suffering. If you can really feel the pain of that person deep in your heart, you are a real human. Or you are a real human in proportion to what you can feel.

A woman who is Spanish in origin sends Che a letter from North Africa, from Algeria I think, after the Victory of Cuban Revolution. Her surname is also Guevara. She thinks they could be relatives and ask Che:

‘Which region of Spain did your ancestors migrate from? I wonder if they were in the same region with my ancestors...’

Che answers;

‘I don’t know which region of Spain my ancestors migrated from. In fact, it’s not much important for me. But, if you can shake with indignation in case of an injustice which occurs in the far end of the world, then it means we are friends, this is the most important thing.’

Because to be a real human is this, comrades!

(Applause...)

Che in Guatemala

Che heads to poorer countries of Latin America once more after he graduates from Faculty of Medicine in order to help Latin American Peoples as a doctor and cut their pain a little bit at least. He goes to Guatemala. At that time a young soldier from public named **Jacobo Arbenz** becomes the president. He is progressivist, patriotic and anti imperialist. He invites all progressivists, patriots to his country. He initiates a radical land reform. There all areas of agriculture in a large scale, at a rate of 80%, are in the hegemony, exploitation of a monopoly of the USA, United Fruit Company, as in whole Latin America, Cuba is in the same position before the revolution. He deprives that company of those lands and nationalizes them.

This USA company, which has close relationship with all the units of the government of the USA, taxed and registered his land’s decare from 3 dollars on the record to pay his tax lower. And Arbenz nationalizes the land from 3 dollars.

This monopoly claims: ‘Hectare of my land amounts to 75 dollars. How can I sell it for 3 dollars?..’

And Arbenz says: ‘ You have been paying from 3 dollars up to now. How could the value of this be 3 dollars then? Not much!.. 3 dollars!..’

However, as we all know, the USA takes over the mission of ‘chiefbanditry’ of International Imperialism from England at the end of the World War II. And it performs its first fascist coup in **Iran** in 1953. He subverts the prime minister, **Muhammed Musaddik**, who is Turkish in

origin. He initiates a radical land reform like Arbenz; he takes petroleum, a wide subterranean wealth of his country, from monopolies of the USA and England and nationalises it. He is a progressivist and patriotic man. The USA subverts him. Then he turns towards Latin America and subverts Jacobo Arbenz by a fascist coup in 1954, which CIA plans and heads...

This is the first fascist coup that CIA and the USA performed in Latin America. After that perhaps tens of fascist coups alternate. This cowardly bandit would torture all Latin American Peoples.

Che sees topsyturviness, pain which the peoples suffer from and the cruelty, heartlessness and injustice of the fascists. He is brave of course. He gets angry with Guatemalan People: 'Why don't they get armed and fight? They just surrender the fascists.' he says.

At that time Che is a nationalist revolutionary, like Fidel before the revolution. He is not a socialist yet. He meets his first wife **Hilda** from Peru before this fascist coup. Hilda is a socialist. And she explains the lowdown of the Imperialism and its class base.

Che is a sincere, openhearted person seeking the truth...

Anyway comrades, (*showing Che's poster, publisher*) when you analyse these eyes, this look... As a song says; '**In a spring morning**'... These eyes are pure, clean, brilliant, relieved... That look is clean...

It is the soul underneath that look, which is clean. His clean soul, sincereness and highness of his morals are among the most important features of Che.

(Applause...)

'If a person only devotes himself to a high matter he can give a look like that. He can look so sincerely and chastely.' says Eduardo Galeano.

I mean we see Che's heart in his eyes!

Let me mention the moment that photo was taken, comrades.

Our comrade told us what kind of cruelties and tortures this chiefbandit has done to Cuban People as well as world's peoples...

USA slayed 100 innocent Cuban people, mariners in a sabotage action against Cuba. And Che, at their funeral, came to ceremony ground and appeared on the platform where the funeral was conducted for a very short time and turned to his work. **Alberto Corda** pressed the shutter release. And the photo was taken at that moment. As Alberto Corda says, Che doesn't like his photo to be taken at all. If we observe carefully, we can see that we have very few photos of him or rather very few photos of Che could be taken. Alberto Corda knew Che, Fidel and other heads of Cuban Revolution from the outset of the revolution, he was with them. Thus, he could press the trigger in a short time which can be counted in seconds and take this famous photo of him.

I mean in that look we can see the hatred and animosity against that coward USA Imperialism.

At the same time in the same look we can observe the pain he feels for his Cuban comrades whom he lost, friends.

Cowardly USA has performed countless sabotages. She also caused a Cuban plane carrying Cuban Fencing Team which picked almost all the medals in a world cup to fall and killed 73 Cuban people in 1977, I think. She has countless sabotages like this.

Our comrades said CIA, USA had Che murdered. Yes, if we have enough time left we will talk about it more thoroughly.

Cuban revolutionaries initiate a wide, radical land reform in the first year of the Cuban revolution in the same way Arbenz does. In short, Fidel and Che want to fulfill the Democratic Reform Plan which he manifests in his famous plea named '**History Will Acquit Me**', and they fulfill their end. Then the USA places economic embargo on Cuba. She figures out that she has a merciless enemy against her and an undaunted ally of the world's people. Such an enemy for her and such an ally for world's people appeared. At that moment the USA makes the decision to kill Fidel, Che and Raul. They come together and decide to kill them. We have to annihilate them. Unless we suffer from them, they say. In short, the decision of the murder of Che is given by USA Imperialists in 1960, comrades.

Like other progressivists, revolutionaries, patriotics Che is exiled from Guatemala. Revolutionaries are filled to trains and deported by servants of new fascist dictatorship by servants of the USA.

Che Meets Fidel

Che adjourns to Mexico from there after going to a few Latin American countries. And in these years Cuban revolutionaries, Fidel's friends, tells about Fidel's and his friends' attack on Moncada Barracks at a place excitedly. Che doesn't know anything about what Fidel does and the attack on Moncada Barrack until then. I mean he doesn't know in detail. He has some suspicion about action which is performed that much courageously, daringly, boldly can be real or not. He can't even give himself over to think for a while; '**Why are these people not telling a cowboy tale?**' he says. Shortly he finds Fidel's attack on Moncada a bit fictitious.

They meet Cuban revolutionaries in Porto Riko and they adjourn to Mexico as our friends told. Cuban revolutionaries introduce Che to Raul. And Raul introduces him to Fidel.

They sit and talk with Fidel one night and he is persuaded in one night to a revolution conception which he found too unrealistic. He is persuaded in one night.

This shows not only Che's openheartedness, respect, interest and quest for truth but also Fidel's faith in his opinions and his logical consistency and ability to defend his opinions, comrades.

They decide together to start a second operation against Batista Dictatorship in Cuba. They participate together in a training which **Alberto Bayo**, the great commandant, guerilla commandant gave. And as we all know, they sail to Cuba with 82 Comrades with Granma.

Each Cruelty Involves a Rebellion

Cowardly actions and crimes committed against humanity by chiefbandit have certainly caused great suffering. But at the same time created the changes in Che's life, friends. If she hadn't built a fascist dictatorship in Guatemala, Che could have continued curing people as a doctor there for many years. And perhaps he would never meet Fidel. But we say that life is dialectic because of this, comrades. Even the greatest negativeness comprises positiveness in it. No other way is possible. No other way can reality exist.

What is it that gives a person the greatest pain?..

His friends', acquaintance's death comrades... Nothing can give such a great pain. Not his own... Comrades' and friends' I say... Yet even this fact substantiates the change the positive change in the world. It couldn't happen in any other way. Humanity wouldn't have maintained itself in another way... I mean pain creates, forms, constitutes so many positive things at the same time.

As Che says, they are the USA imperialists who have worn the boots of 'Hitler' after 1945. The chief of today's USA is Bush, the dishonorable. This fascist coward is the enemy of the humanity; this scurvy's cruelty against people will also cause peoples' awakening. And one day USA imperialists will feel too cheap to look at people's faces.

Comrade Ernesto Gomez has said: 'This coward calls struggler of freedom who take her side and who are her servants. Yet, she calls terrorists who are friends of humanity, who challenge her own interests and her attacks.'

This is not only a claim of our comrades or communists like us, friends. It's not an abstract claim. Let me show you a very concrete evidence.

A newspaper named Al Vatan which is published in Qatar, one of Arab Emirates says:

'Let the USA mirror herself. The USA, which seeks solely her own interests while describing several countries as enemy, is trying to enforce her classifications to all of us.'

It puts forward the same true, right opinions as our comrades did in the details of the article.

And this Qatar newspaper proves that Che didn't die for anything and our Cuban friends didn't withstand for only themselves for 40 years. It says:

'Cuba and Venezuela can be a model.'

Let's read:

'Cuba, Venezuela, Northern Korea and Belarus are configuring a socialist-economic system under the control of the state. This situation does not let foreign companies plunder national economy, especially Cuban and Venezuelan experience whose success has increased, (Look, be careful, friends, especially whose success increased)(I mean even they appreciate, friends) can form a model that can be imitated in other Latin American countries. Radical names came into power lastly in Bolivia, Nicaragua and Equator which decided to draw inspiration from this model. Zimbabwe is the latest example which USA is afraid of ranging herself with enemy countries in South Africa. The President of Zimbabwe Robert Mugabe nationalized the lands of white minority in the country so as to be passed on native people. A high amount of tension worldwide is increasing due to American unlawful guidance. This guidance takes its source from assessments which have an attitude based on offensive tendency and double standard but not from an unchangeable, high principle.'

Whose offensive attitude?

The USA's.

Then, words about the USA's being chiefbandit are not communists' abstract claims. These are assessments that utter the truth. A newspaper of Qatar determines the same thing.

There is another actual news. It mentions it, too. We encounter this news as first or second news for a few days... Public led by the Buddhist priests were demonstrating against the military government. And they were right. Look what it says:

'Military government in Burma would have taken strong support from America in efforts of subduing public root if it had been a servant regime like banana republics in South America. Because in such

situations principle of human rights is adjourned. The military regime in Burma is Marxist and leftist. In this content it is a regime which deactivates capitalist ideology called Market Economy. Here it deserves the curse of Washington.'

It goes on, friends...

Unfortunately, we do not have much knowledge about the class identity of the government and the movement in Burma. As far as mentioned here and as the media in the countries guided by the USA like us support this opposing movement most probably regime in force is a USA opponent and patriotic regime, friends.

On the other hand, elections will be held in Pakistan, next to the same country, a few days later to enable Pervez Musharraf to be elected as the president again.

All right, do the USA and her servants say anything about it? How long has this servant been maintaining military government? As far as I remember for 6-7 years, hasn't she?

And always in the USA's support... There is no complaint, you see...

She executed two fascist dictatorships in our country in the same way.

Who carried out 12th March and 12th September Dictatorships?

USA... It's clear... No one denies this fact in Turkey any more. Provided that s/he is honest.

Che's Call for Struggle Is Continuing to Spread on the Grapevine and His Guns Are Passing From Hand to Hand

The servant media, at the USA's service, so-called scientists, researchers, writers, even artists, politicians are so much cowardly, inhumane, ignoble that... comrades...

They can't resist Che today. They can't utter any negative ,(‘pejorative’ in Western languages,) words about Che. Yet, unblushingly they try to use even him, a hero like Che, a hero of Cuba, against Cuba. They make demagogies, they pose disgusting lies cowardly, dishonourably like ‘They had disagreement, problem with Fidel and because of it Che went to Bolivia .’Moreover, some of them make disgusting productions under the name of ‘Che documentaries’.

However, comrades, most of our friends must have read Che's **‘Farewell Letter’**.I recommend you to read it from **Can Yücel**'s translation. It has been translated many times, yet, the others can't reflect Che's heart beating full of love for those peoples, hatred for the chiefbandit, love for Fidel and Cuban comrades with all warmth I mean as it is.

In the last paragraph of that letter Che says to Fidel, friends:

‘If our last hour will strike under separate skies, know that I will think of you even at the last moment.’

He is so loyal...

I want to read the last two paragraphs of this tiny booklet you see **‘ One Two More Vietnams’**. Actually it's very important in total. All of us should read again and again, friends. As you know this is the last message he sent to **Three Continents Conference**, held in Havana in April,1967 a few months before he was murdered. And this is his last addressing to the world's peoples. This is Che's last call which he addressed to World's People and Revolutionaries of the Labour Class. He sends this message when he continues the guerilla war in Bolivia. Our young friends may not know. I mean he adjourned to Bolivia in 1967 autumn and started guerilla and he was captured on October 8th,1967 and murdered on 9th October. He had been carrying on a guerilla war for 11 months in Bolivia.

‘If we, who put under our self abnegation and our lives which is little we can give to order of struggle(can you think of friends, he says our lives our self abnegation, he says little that we can give to order of struggle), **are supposed to breathe our last in a world which is watered by our blood and which is ours then, at that time it should be known that we sized up influence area of our actions well and we didn't think ourselves more important than being a member of a great proletariat army, but we are proud of Cuban Revolution and its great commander**(Fidel, friends) **and**

of great lesson taken from the attitude he had towards this part of the world. (And he quotes a sentence from Fidel:)

‘If the fate of humanity is at risk, what importance can have the risks or self sacrifices which a person or a nation faces?’ (Fidel’s word)

‘Each of our actions (this is the last paragraph, friends) is a battle cry against imperialism and against the United States of North America, ultimate enemy of human kind...’

Can you think of it friends, ultimate enemy of human kind, the United States of America Imperialists...

We have said the same thing for 60 years, too.

In this respect our hearts beat in the same rhythm with Cuban Comrades and Che. On multiple issues... I’ll give examples as far as time lets.

I mean if you can’t say ‘this is the chiefbandit’ you are not a revolutionary, you do not have the right to mention Che, Fidel and Cuba.

And in the previous pages of this message Che proposes that humanity, revolutionaries should set to war against this chiefbandit all over the world by arising hand in hand and creating ‘Two-Three, More Vietnams’. If we materialize this union one by one, all countries, oppressed countries will be freed from this rotten bastard. After that, this perpetrator which is like a fierce animal will have to withdraw to her den, to her country’s borders. And American People and American Labour Class will finish with it, says Che.

‘This is a roll call to peoples against United States of America.’

He says, all my struggle and war I have been carrying on in Bolivia is a roll call to the World’s peoples against this recreant. He defines his struggle like this. The struggle he gave his life for...

‘... Whenever death may surprise us, let it be welcome if our battle cry has reached even one receptive ear and another hand reaches out to take up our arms, and if other people wail for our funerals in the midst of mitrailleuse sounds and new battle cries.’

USA's 'Sources of Hope'

Why is this so important today, friends?

Because, there is a movement called Revolutionary Civil-Servant Movement in ideological line of 'Yürüyüş-HÖC (The Front of the Rights and Freedom)'. It has a website. This is an article from there.

A Congress of KESK (Confederation of Public Employees Trade Unions) was held in 2005. It was approximately two or two and half years ago, friends. And Revolutionary Civil Servant Movement's supporters make a motion. And this motion is rejected. It is about what is rejected:

'Among the proposals, it was the proposal for constituting a programme of struggle against USA and EU Imperialism whose rejection was the most striking.'

Such a proposal is rejected in a KESK Congress, friends.

Who can say it is revolutionary? Who can say ones who reject are democratic and patriotic?

These are flunkeys of USA –EU.

And how did we name them, with most proper name for them?

Pro-Sevres False Left ... They have no right to be real left.

Indeed, they say the same things in this site:

'This proposal which cannot be rejected by people who call themselves revolutionary, democrat, patriotic and say 'I'm for labor.' was rejected in KESK Congress. All groups which rejected the proposal, first of all Patriotic Labor Movement Group are to explain the reason for their rejection to civil servants and all people. Ones who share the administration of KESK via Kurdish Nationalism also have to explain. What do ÖDP(Freedom and Solidarity Party) and EMEP(Labor Party) say about the issue?' goes on, friends...

Unfortunately ‘Yürüyüş-HÖC Movement which is claiming to be revolutionary is also in line with them on most issues today. In fact in the same line...

They are taking a stand together with them

This is an honour for us.

USA allies’ taking a stand against us, their declaring us as ‘enemy’ is an honour for us, friends!

Where do they take a stand?

Can a movement that adores AGOS Newspaper which is published under the ideological guidance of Taner Akçam, who no one can deny being an agent of CIA, who lives in the USA and who is given a chair in a university, be a real leftist or a revolutionary? Besides, Taner Akçam is among the writers of this paper. Can a movement supporting AGOS line among the writers of which is Yasemin Çongar, whose being CIA’s or Pentagon’s voice can’t be denied by anyone, be revolutionary? Can a movement supporting AGOS Newspaper for which, USA’s flunkey living in the USA, Fethullah Gülen’s Zaman newspaper’s writers administrated officially, talk about being revolutionary? Of course, not! And because of that HÖC-Yürüyüş changed course, separated from revolutionary lines and joined the gangs which we call **Pro-Sevres False Left**.

And what do American Foreign Affairs authorities, administrators say?

They say ‘**Our Source of Hope**’ for them, friends,’ ‘our source of hope’...

Is there a bigger curse or insult for a revolutionary than this?

But they give no answer.

What does the USA call them?

‘**Democracy Forces**’...

Just like she calls her flunkys...Like Tayyip Family, TÜSIAD, (Turkish Industrialists' and Businessmen's Association) MÜSİAD (Islamic Businessmen's Association) and other kind of cowards claiming to be artists, scientists etc., media bought for money and dictatorships in various countries of the world; 'democracy forces'.

What does she say for us?

'Ones Showing Chauvinistic Attitudes' says she.

You see...

Look, how USA sorts out...

This is an honour for us. Such a classification of the USA is an honour.
There is not a greater honour than being his enemy in the world today!

(Applause...)

The representatives of Pro-Sevres False Left say about us: **'They are like Yaşar Büyükanıt who has a USA merit medal.'**

They are demagogic accusations, nonsense things that have nothing to do with reality. Disgusting, dirty blaming.

But Yaşar Büyükanıt is more honest than them.

Why is he honest? Friends...

Enter the General Staff's site...It introduces Army General Yaşar Büyükanıt. One of his properties is shown as a USA merit medal. He is described to have a USA merit medal.

But what about being declared by the USA as 'source of hope'?

Isn't this a more important medal or at least as important as it, friends?

What does it mean to be announced as ‘democracy forces’? Isn’t it also a medal? Why don’t you confess it? You are for her with your actions, but why are you claiming to be revolutionary in your words?..

No... Revolution area is not empty. **We have been honour, glory and correct line of Revolutionism, Labour Class Movement and Marxist-Leninist Movement since 1921!**

(Applause...)

No one can deflect us one millimeter from our line.

No one can make us step back!

No one can frighten us!

No one can intimidate us!

(Applause...)

We are all going to die. This way or that way. Has it any importance?..

What is important?

Fidel explains:

‘The important thing is, not to die turning back to enemy.’

Yes, it is the only important thing in the world!

Dying while struggling courageously, fighting, friends!

Not to die turning your back to enemy, stepping back, fearing, cowering!

That is to lose your honour.

We really understand Cuban Comrades and Che. Fidel and Che are so close to us. Because our ancestors also said when we were small children: 'My son, a man lives for his honour. If you can't guard your honour, you are a worm. Not a human anymore. Your life has no value. For this reason you won't allow anything to be said against it.'

Our Leader Kivılcımlı, our comrades and we all have led such a life up to this age!

We will struggle and die in the same way from now on!

Our young comrades will also struggle in the same way!

This is revolution and being a human!

Che is A Real Internationalist

As our friends said the most important characteristics of Che is his being Internationalist, comrades.

First of all, Che didn't recognise borders between Latin American countries. 'These are artificial borders which imperialists minted and drew. Our mission is to erase them. We do not recognise them' said he. His particular struggle was towards it. His broad struggle was towards the USA's withdrawal to her den and world's being a socialist family.

As our friends mentioned CIA makes a flunkey of imperialist, president called **Kasavubu** and hanged **Lumumba**, a patriotic prime minister in Congo, after overthrowing his government by a fascist coup d'etat.

CIA brings a gang flunkey of imperialists consisting of a trio called **Kasavubu, Combe** and **Mobutu** to power. As we mentioned the USA made fascist dictatorships also in Africa. Che mentioned in previous pictures...

Che and his Cuban comrades are in Congo to struggle against fascist dictatorship with people of Congo. But when we read Che's

‘Memories’ there, we discover that he was disappointed with patriotic leaders there. He says they are not altruistic enough.

Ahmet Bin Bela, one of the leaders of the Independence War of Algeria, had written the followings on this issue:

‘He refused the private plane I want to put under his order when he came to ‘Congo -Brazil-he came several times. I met him each time he turned from Black Africa we talked at length, gave and took. He would turn back affected by continent’s well-known cultural richness each time, but not being able to find what he sought for due to thoughts and ways of perception of Marxism in Marxist parties of countries he visited. Cabinda experience, later, combined with his experiences in old Stanleyville had disappointed him.’ (Jean Cormier, Che Guevara, page 343)

According to Che, leaders of anti-imperialist struggle in Africa weren’t altruistic enough. They didn’t dedicate themselves with their soul. Therefore, they couldn’t comprehend every aspects of struggle they gave. Of course Marxism, either...

And Che says in somewhere:

‘African Peoples will suffer more if they follow such leaders.’

Because the cause of revolution was prior to everything for Che. He wouldn’t think any other things. Alberto Corda also says so and all friends who know Che say so...

After the victory of Cuban Revolution, **Che is the Minister of Industry**

He makes himself responsible for organizing socialist economy in the country. He wants to adjust, fix and organize the ruined country and economy which had been the colony of the USA for 60 years with a socialist manner. This requires great effort, of course. As you see how he works. During his duty, Che sometimes works 35 hours continuously...35 hours continuously, friends. Without any pause...

This is such an altruistic, decisive, ambitious and devoted manner of Che.

And again in somewhere says he:

‘So rarely can I call in my house that guardsmen near my house can see my children more often than me.’

That is to say everything is secondary for Che, friends. **What is primary** in all conditions, all the time is **The Cause of Revolution, Revolution Struggle for Che.**

His Cuban comrades and Cuban People are filled with admiration to Che’s altruism, his energy and his diligence. Even in times of some chat and relaxation, idleness they make jokes: ‘Psst... Che is coming!’ they say and frighten each other jokingly. But they shied away from Che seriously.

Why?

Because Che himself works the most self-sacrificingly. He is also a model on that issue.

But he wants his other comrades and Cuban People to be like that. He expects them to be like that.

If we devote our lives to socialism struggle, we are to do like this, we are to work like this, says Che.

Che is the General Manager of the Central Bank, friends.

Look, how complicated economic duties he undertakes. And he fulfills these tasks successfully.

And Che is the Commander in-chief of Cuban Armed Forces.

Again, he wipes out an army of 1200 cowards derived, educated and sent to Cuba via invasion, largely from Latin American traitors and CIA agents by the USA, under protection of her planes, her helicopters and warships at a place called Playa Giron in Bay of Pigs in 24 hours.

Of course traitors are coward! When some of them are killed, others lay down arms. In 24 hours he finishes off these cowards that CIA trained for months. Che is such a brave fighter and commandant.

Personal Traits of Guerilla Commandant Che

Let's talk about Bolivia, comrades, Che's combat there...

It's a fact accepted by all military experts that Che was the world's most famous, the most respectable guerilla commandant.

Once I witnessed this.

Year 1970. **Kütahya-Gediz Earthquake.** We as Dev-Genç (Revolutionary Youth Organisation) went there to help people affected by the earthquake, mostly from İstanbul University Faculty of Arts with two buses under my control-let me mention myself. Of course, military troops are there helping. Parachuters and members of the Airforce are in the foreground. The earthquake managers made us pitch our tents next to them. We are chatting, talking. We are frank with our Dev-Genç collars and armbands, friends. We discuss socialism. The commander of the troop was a man called Lieutenant Colonel Halit. Year 1970. The memories of Che's being murdered are still alive, friends. We talked about Che. He is a guerilla officer, too... said the same thing: **'Che, General Giap and Mao are the greatest guerilla commandants in the world.'**

I mean such a famous, respectable commandant digs trench in turns with a 20 year-old person who newly joined the guerilla, working in equal duration of time, friends. And he participates in carrying and hiding the military munition and food to various regions in person. At the same rate...

I mean, he doesn't say: 'I'm such a famous commandant, I don't have to do these'. Moreover, he isn't young then: He is 38 or he is in his 38s, friends. Although this is the case... And as **Inti Peredo**, one of the warriors who carried on guerilla after Che's being murdered said: **'He is not a strong and healthy person.'** As we all know, he faces first asthma attack when he is two. And after that he is always in trouble with asthma. In Bolivia mountains he eats deer meat and has an asthma attack; he eats orange and again has an asthma attack... His body sometimes reacts those foods so heavily that his digestion system is disrupted totally. And the guerillas have

to carry him in a hammock for a while. I mean he becomes so weak to take a step in some occasions. However, he can perform the same physical activity and energy with the other guerillas, friends.

I mean he doesn't say: I'm a commandant, older than you, furthermore I'm not healthy. For this reason, exempt me from these works.' He doesn't have such mentality at all; Che even can't think of this let alone he can accept.

I mean Che is such a person!

So, he is brave, self-sacrificing and determined... Trustworthy... Self-confidence is perfect... Always perfect...

Well 'Can I accomplish this, perhaps?..'

Such a question never passed through his mind in his life. Such a person is Che.

Heroic Guerilla Che in Bolivia

Thus, USA Imperialism is seized with extreme fear of success of Socialism in Cuba, victory of Cuban Revolution, organization of socialist economy in Cuba and challenging this coward and forming a very positive example for Latin American Peoples. And she traces Che everywhere in the world.

Philip Agee has a foreword or we can say an introduction in this book named '**CIA Against Che**'.

Philip Agee is a former CIA agent who regrets, as most of our friends know. He has a two-volume book, '**CIA Diary**', depicting cowardly and inhumane plans and operations that CIA made... A book which tells dirty works, detestable works of CIA. He also tells there. Philip Agee talks about how Che was watched by CIA since 1965 and how he searched him all over the world insistently.

Where is Che? They wonder...

There are various rumors. Some say he took wrong asthma medicines; he is in a long term treatment in Soviet Union. In some part of the information CIA gains, he is said to be in Cuba. It is to say, CIA discusses on probabilities. Some say he is in a Latin American country. Some say he is somewhere in Africa... CIA investigates these probabilities or information coming. F. Agee himself is in a CIA unit in Mexico then. He tells in the book how insistently they searched him.

In the very beginning of Che's struggle in Bolivia 3 guerillas are caught by Barrientos fascist government. The fascist torturers make all three talk. They learn that Che had started and continued the guerilla movement centered on **Santa Cruz** and **Camiri** regions of Bolivia, where Che has been and what he has been doing comes to a true picture then. And after that, all high level units of Pentagon and CIA take action.

And the first clashes start, too. In the early battles Barrientos's troops are defeated. They suffer big losses.

They immediately collaborate with Pentagon, and the military experts, CIA experts, executioners who have practiced pretty well in cowardly works in Vietnam flock into Bolivia. **Felix Ramos Rodriguez** is one of them. They give special training to Barrientos's 4.800 persons of army. They give them a training given to special soldiers called R-2 Soldiers to combat against guerilla. They also support this 4.800 persons of force with military aircrafts and helicopters including napalm. And they make them chase Che and his 53 persons of guerilla troop.

Please, pay attention to unevenness: 53 guerillas at one side, 4.800 persons of force of fascist state, on the other side...

Besides, CIA and USA together with Barrientos blockade all the critical centers in Bolivia including the capital city La Paz. Together with his army and police force... They monitor all the entrances and exits, all camps, all hunting units, all hotels; I mean they terrorize all people coming and going, visiting there. They terrorize all public organizations first of all labour unions. Their sole aim is to prevent any sympathy for the guerilla and any participation to the guerilla...

Unfortunately, USA accomplishes her cowardly plans and work. Nobody joins the guerilla during 11 months. Scarcely any. And Che's guerilla troop giving one or two losses in each clash shrink steadily; of course due to this

decrease its impact diminishes. And lastly on 8th October 1967 at Yuro Passage (It's a steep passage, 60 meters in width and 1500 meters in height. A small stream, one or two in diameter, flows on its floor. But it has steep slopes in both sides. At that passage, Yuro Passage) 2.000 persons of this 4.800 persons military force surround Che's guerilla troop. They are 17 people, Che and his friends. Despite this, Che never loses his calmness. Inti tells in his 'Memories'. Inti is also murdered, later, as we know. He continues guerilla after Che. His brother Coco Perado takes command after him. They are Indian origined Bolivian revolutionaries. He is also murdered. He is martyrised. Shortly, Che never loses his temper. He prepares his combat plan calmly. They discuss on escape possibilities, I mean release possibilities from siege. They put forth concrete plan. The clash starts at about 13:00. Che's guerilla troop shows a great resistance. They resist courageously. The military troops arrive. They are surprised. They did not expect such a resistance. The fascist troops guided by CIA give two losses and several wounded.

But there is a troop against them equipped with all kind of military supplies and military equipment... At this side there is a 17 persons of guerilla troop having restricted amount of bullets and only rifles and guns and hand bombs... It's not easy to cope with and almost impossible...

In the afternoon Che, in order to find a way of escape, to break the siege, climbs the peak. But, unfortunately, he finds the fascist soldiers guided by CIA in front of him...

'The soldiers immediately open fire and Che is wounded from his right calf. He reaches for his own gun. But his M-1 carbine becomes useless with a bullet piercing it and passing through it. He draws his gun but sees there is no bullet in it. He has only his Solingen knife as a weapon.' (Jean Cormier, Che Guevara, p. 403-404)

Che falls wounded. Guerilla Willy steps in front of him when soldiers try to rake him with gunfire and get rid of him:

'He is the commandant Guevara, you have to show respect him.' he says.

He is also a brave guerilla...

They are surprised by this event. They can't believe at all. They inform high rank commanders and Che is taken captive.

They take 3 guerillas, one of them wounded heavily, with Che. There are dead guerillas. Che can only walk by being carried under someone's arm. And he and his 3 comrades are brought to a small Bolivian village called La Higueras, 'Fig Trees'.

He is taken to the village's small school, in Che's words, '**So primitive that it can't even be used as a barn for animals in Cuba**'. Julia Cortez, the female teacher of the school who has newly started her career comes to school on 9th October morning. The place Che has spent the night as captive is her class. When they meet, Che asks '**How can you give education to people's children in these places?**'

The teacher is much influenced by Che. However, until that day, due to the propaganda of CIA and fascist state;

'I had been imagining Che as a monster. But when I saw the love, care and concern in his eyes, I couldn't stop myself from admiring him.' she says.

Che speaks pure Spanish. He is a master of the grammatical structure and details of the language. He reads the notes of the lessons covered on the board. Che finds and shows a spelling error of the teacher and corrects it...

In short, Che is so humanistic even when he goes to death, he thinks of people's children. He isn't taken up with his own problems. He has such a heart, conscience, soul that cares people so much and which is so calm, friends.

He is being watched in turns. In night turn Che talks at great length with a 22 year-old, young noncommissioned officer, **Mario Eduardo Huerta Lorenzetti**. He influences him, too. And he feels admiration for Che, too. He accepts Che's offer to help him to escape. He would help Che to escape. This young officer talks on the issue with the authorized sentry of the military troop composing a larger chamber outside. Because, to save Che, he also should help. But he frightens this young, good-hearted officer saying: '**What are you doing? They kill all of us if something happens like this!**'. He can't dare to do.

The next morning Che says to the CIA agent, Cuban traitor Felix Ramos Rodriguez, who wants to question him:

‘I never speak to a traitor!’

Upon that, the same young officer, M.E. H. **Lorenzetti** reproves the coward traitor R.Rodriguez, who tries to insult Che:

‘You must behave Che respectfully. He is a hero. He struggled for his country, for Cuban People, for Latin American People.’ and protects him. And according to the writers’ statements , he pushes him and makes him fall down.

And this spy threatens that young officer saying:

‘You will pay for it, stupid, wild Indian, Bolivian dog!’

There upon, the young honest officer tries to give a punch to the CIA agent. But Barientos’s Colonel **Andres Selich** prevents this by intervening.

USA Likes to Use Traitors For Her Dirty Works

Felix Ramos Rodriguez attends Che’s execution personally. He has a past in Vietnam as a slaughterer. He has tortured and slayed Vietnam People. CIA has used the same spy in Iran. She has used him against Cuba in offensive actions... And now she has used him in Bolivia. After that she uses him in Nicaragua... In Chile... In tens of fascist dictatorships in Latin America...

He possesses all kinds of ignominy. He is judged several times because of smuggling guns in Latin American countries. Of course he is acquitted by CIA each time although there is concrete evidence.

(Showing Adsy Cupull and Froilan Gonzales’s book ‘CIA Against Che’,publisher):

Here there are pictures of such a recreant with Father Bush in this book. George Bush receives Felix Rodriguez. Here they sit together. Of course friends sitting at the back can’t see. Here again there are Christmas wishes

which Father Bush-father of today's recreant-wrote with his handwriting in person for Felix Rodriguez. And again, finally there is a photo of this recreant in his house in Miami. And in this photo he is , this dishonorable man is seen in his house, which he turned to a museum of his ignominy, which he decorated with belongings he stole from the guerillas he killed.

Shortly, the USA is such an ignominious imperialist bandit, friends. The troublemaker, chief enemy of humanity. In Che's words, the chief enemy of the human race today.

USA and CIA Are the Murderers of Che

As we mentioned before, the execution order is given by Pentagon. **Barrientos** can't dare to put the order into practice on a sudden. He is seized with fear of ' **I will be responsible for executing a famous, notable person like Che unjudicially. How can I explain such a thing?**'

But CIA convinces Barrientos with a long message, order written (it is told in this book, friends):

CIA says:

'If you imprison him, you'll get into trouble. The guerillas who are his followers make activities to save him. People pursue him. The actions defending Che and reacting you arise all over the world. You can't overcome this. But if you kill him, he will be forgotten...'

I mean murderer of Che is USA and CIA, friends!

Barrientos's butchers also murder 2 guerillas captured alive with Che immediately before his execution. Of course due to the order of CIA...

The USA imperialists congratulate their servants, Barrientos and his team, after the slay:

'The government of Bolivia received laudatory celebration messages from the United States of America. The American senator Howard

Backer expressed the USA's thanks officially and openly in a speech. He declared that events had great importance for the USA and added that 460,6 billion dollars sent to Bolivia under the name of aid was actually a cheap cost for the victory brought to the USA because it was the amount spent in Vietnam War in a week.' (Adys Cupull and Froilan Gonzalez, CIA Against Che, p. 150)

This paragraph clearly exposes who the real murderer is.

Master Kivılcımlı Analysed the Cuban Revolution Right From the Outset

In 1967 summer when Che was still alive (I went to Istanbul that autumn in 1967 as a freshman and I wasn't in the socialist movement then), our Master was writing in **Socialist** newspaper. There he published and expressed his views as **'Cuba and Che follow the most real socialist way in the world the most decidedly and the most courageously.'**

The headline of the article is **'Cuba Challenges Fate'**

(Applause...)

In short, our master says Cuba challenges all imperialist bandits.

And in his article, he criticizes both CPC(The Communist Party of China) government and Soviet Union because they didn't support and protect Che and Cuba sufficiently.

The head of the Soviet Union was Khrushchev then. He criticizes Khrushchev openly by giving his name.

Shortly, we have been of the same opinion with Cuba and Che in every aspect for 40 years, friends.

Then, most of Turkish Left was in TİP (Turkish Labour Party).

And Mihri Belli's MDD (National Democratic Revolution) line was newly being shaped.

And after that, as we all know, some part of the Turkish Left would scatter to CPSU (Communist Party of Soviet Union) line, and some to CPC (The Communist Party of China) line and later some to PPSH (Party of Labour of Albania) line.

We are the only revolutionary movement left thinking and acting with our own mind, friends. And we have been the one who applied Marxist-Leninist theory to our country's originality as Lenin recommended.

We Also Agree with Cuban Comrades on Marxism-Leninism Issues

We have always been of the same opinion on several important issues of the revolutionary movement with our Cuban comrades and Che.

For example, we said about Mao: Mao followed a very correct line until 1963. He accomplished a gigantic revolution, he is a great revolutionary. Yet, after 1963 he diverged. He deflected. He entered a wrong line.

Che says the same, too, comrades, writes the same lines here. And Fidel also says the same thing. On the 18th anniversary of the revolution. When does he say? As the revolution was accomplished on 1st January, 1959, he said it in 1977; a woman spy of CIA in the appearance of a reporter of the American ABC channel guided by CIA, Barbara Walters, goes to Cuba to make an interview with Fidel. And as she asks about many issues she asks on this issue, too. And Fidel says the same thing about Mao.

When it comes to Stalin, we say he was the best learner of Lenin. He was the learner who understood Lenin best. We have always said it. But later, he turned towards the cult of personality. He broke off with the crowds-masses. He lost touch with them.. He treated his comrades roughly. And because of this, qualified people didn't grow in the Party and in his close circle. Or we can say qualified and honoured ones left the Party. He oppressed his comrades in his close circle. Of course, a self respecting person doesn't accept being oppressed.

What does he do?

He opposes and defends his thesis bravely and envisages paying for it or he can't risk, he is discouraged and leaves and retreats.

And dishonoured people like Khrushchev find an opportunity. These kinds of people surround Stalin. Of course, losses caused by the Imperialist World War II. are crucial here. This war exterminated almost all self-sacrificing, courageous revolutionary leaders. Soviets lost twenty million of her people in this war, in this Imperialist Sharing War.

Fidel says the same thing for Stalin in the interview he made with Barbara Walters. You will see when you read it.

Mustafa Kemal is the Leader-- the Commander-in-chief-- of Bourgeois National War of Independence

Let's talk about Turkey's distinctive issues a little, friends. To a subject which is being discussed passionately these days... To the subject what line **Mustafa Kemal followed...**

We say all along that Mustafa Kemal is the Commander-in-chief of National War of Independence led by the bourgeoisie.

He developed a National War of Independence against international, occupant, predatory imperialist forces which aimed at the partition and the extermination of Turkey and won the victory.

But we say the class structure of this movement is bourgeois. I mean 1919-1923 National War of Independence is an anti-imperialist Independence War possessing bourgeois features. We always say it, friends.

Lenin makes the same statement, too. We wrote several times.

And Fidel also says it, friends.

Let's give an example of it or prove it. In **Yeni Yüzyıl** newspaper dating 15th March 1997, **Jale Özgentürk** makes an interview with **Fidel** in

Istanbul (as we know Fidel was chosen as a speaker in **Habitat Meeting**, he was in Turkey those days)

Fidel, referring to Mustafa Kemal, says:

‘I wouldn’t have been able to accomplish what he had done. The real revolutionary is Atatürk. I have made such a big revolution, yet, I couldn’t have accomplished what he had done.’

Seceder bourgeois politician Yıldırım Aktuna, who died recently, had gone to Cuba and visited Fidel when he was the Minister of Health. Fidel says the same things to him, too. And he had reported, friends. Aktuna reports:

‘Fidel expressed that he knew the whole life of Atatürk well and Atatürk was a great soldier and one of the most important leaders of his age, afterwards he said I have made such a big revolution in Cuba, but I couldn’t accomplish what Atatürk had done in Turkey.’

Today there is a statuary of Mustafa Kemal only in a country except Turkey, friends.

Where?

Audience: In Cuba.

Nurullah Ankut: In Cuba, in Havana, friends.

(Applause...)

We have an honourable poet and story writer called Dursun Özden. He writes a story about Fidels in Turkey titled ‘Our Fidel’s Story’ . I mean a story about Turks named Fidel. And this story is awarded by a litterateurs association constituted by friends of Cuba in Latin America. And Dursun Özden was invited to Cuba to take his award. There he met Fidel, of course. He made interviews with Cuban people at the same time. He tells his trip in this book. The name of the book is ‘**Cuba isn’t Far**’... I advise you to read it...

Here he quotes a conversation he made with one of the Cuban People in his Cuba trip. Let me read shortly:

‘While I was cleaning wild grass passing through the iron bars around Atatürk’s bust, an old black woman, nudging, pointed at me to leave there. She warned me like saying it’s my job who are you? When I asked whose bust it was, Madam Lerya, who was speaking, laughing and going on cleaning stuff at the same time; said ‘He is the revolutionary leader of Turkey, Mustafa Kemal, who won the Independence War against imperialism in his country. A national hero like Jose Marti of Cuba and showed the birth and death dates in Spanish written on the brass plate on the bust and the date of construction of the bust.’

Did you pay attention, friends?

An old black Cuban lady says: ‘Mustafa Kemal is Jose Marti of Turkey. Or he is a national leader like Jose Marti.’

What a right definition this is.

And we say what Jose Marti stands for our Cuban revolutionary comrades, Mustafa Kemal is the same for us.

(Applause...)

Fidel says ; **‘Jose Marti is the pioneer of our revolution.’**

As we know Jose Marti initiated a war against the Spanish colonists with Cuba Revolutionary Party he established in 1895.

And he became a martyr being shot from his forehead while he was fighting courageously in a battlefield. From his forehead, not from his back! He was shot, he fell while he was fighting courageously.

Fidel says: ‘The starter of our revolution is Jose Marti’.

Dursun Özden makes an interview with Alberto Corda, the photographer of Cuban Revolution, who came to Turkey (to Istanbul) to participate in the Book Fair in past years. I want to read a short extract related to our subject:

‘Dursun Özden: Is there any similarity between Mustafa Kemal’s and Castro’s destiny?’

Alberto Corda: If you ignore time differences, Castro and Mustafa Kemal have common features. They were the leaders struggling with the same methods of a war which was anti-imperialist in common yet, unaware of each other. Such people can only be found in rare time and places in the world.

Dursun Özden: What is common in Turkey’s War of National Independence and Cuban Revolution?’

Alberto Corda: For example: Mustafa Kemal landed in Samsun with Bandırma Ship in 1919. To save Anatolia. Che, Fidel and their friends who landed in Cuba with Granma Yacht in 1959 had the same aim. To rescue their country from the enemy.’ (Cuba isn’t Far, p. 56)

As you see, not only Fidel but also two people of Cuba in different status are of the same opinion with us about Mustafa Kemal. These people can see and comprehend the characteristics of our National Independence War from thousands of kilometers. But what a pity that most of the people whom we call Pro-Sevres False Left can neither see nor comprehend it. As we always say they are tourists in Turkey. They know neither the history nor the present history of this country.

We Are Supposed to Crown National Independence With Social Independence, With Socialism

We say the initiator of our anti-imperialist Independence War is Mustafa Kemal. We are going to carry through the war he started and crown it with Socialism, Social Independence. If we leave it only in the line Mustafa Kemal was, it will always regress. Counterrevolutions will always follow it. It can’t be accomplished. Because it becomes an incomplete movement. It is to be maintained, carried through and crowned with social independence, socialism.

We say this.

At the same time, we say we aren't Kemalists. And Mustafa Kemal isn't a Kemalist, either. In fact, Mustafa Kemal doesn't even know what Kemalism is. On the days of the National Independence War, imperialists and foreign press named the independence warriors as 'Kemalists' to refer to them, characterise and name them. The concept of Kemalism emerged from there. And after the victory, bourgeoisie wanted to use and exploit the war and the victory he accomplished by emptying the sense of National Independence Struggle for the dirty interests of its own class. They centred their class benefits and labeled them with Kemalism. Shortly, Kemalism is an ideology which the bourgeoisie created. It has no relation with Mustafa Kemal. Mustafa Kemal is a soldier... He is a soldier who spent his life in battle fields... He knows neither about economic systems thoroughly nor social issues... After all, he doesn't have time to analyze, examine, discuss and probe these issues.

The Bourgeoisie 'Shut' Mustafa Kemal in Çankaya

After the victory of the revolution the bourgeoisie 'shut' him in Çankaya'. They make many drunkards, impostors, profiteers, rascals, plunderers surround him. They deceive him in a sense saying 'Oh, General! Don't go out. Reactionaries will assassinate you. They don't let you complete your work. You order, we do the necessary.' They manage to deceive Mustafa Kemal with their tricks and lies. Izmir Conspiracy lifts the effectiveness of their demagogy. Thus, they make Mustafa Kemal not to be able to go out of Çankaya. They break his contact-touch with people. What can a single person do against a class?.. This is Mustafa Kemal's tragedy...

Falih Rıfki writes in his book '**Çankaya**': 'You haven't addressed to people for years, general. People have missed you so much. Address people at least on the Tenth Anniversary of the Republic' says Falih Rıfki. These happen a night before he delivered the Speech on the Occasion of the Tenth Anniversary of the Republic. I mean he is so isolated-cut off from people, friends. Mustafa Kemal's life after the victory is a tragedy...

But of course, he is a military genius. He beats the largest Cross Army of the history, an imperialist army in Çanakkale. This is a definition of an imperialist journalist in person.

‘This is the largest and strongest Cross Army that history has witnessed up to the present.’ says he.

The commander of these wars, **Ian Hamilton**, a commander who has a military experience and who battled and gained success in South Africa when English imperialists went there to put black people under servitude and deplete the area. They send him to Dardanelles War as a commandant. Ian Hamilton expresses in his memoirs: He is an admirer of Mustafa Kemal and fighting force and bravery of the Turkish Army...

He says somewhere in his memoirs: **‘We are fighting with an enemy like Spartans.’**

He says again somewhere: ‘We are fighting with the bravest army in the world.’

The one who says this is the Commander-in-chief of Dardanelles Allied Forces...

Of course, it was a tragedy that Ottoman Empire entered the World War I. It was a result of dodderly delusions of bourgeoisie of Union and Progress. And that government, Bourgeoisie of Union and Progress brought the most damage and harm to Ottoman People by entering the World War I.

That’s another issue.

Well, wouldn’t it have been divided if it hadn’t gone?

It’s also another issue. No doubt it would be divided. Czar Imperialism, English, French, Italian Imperialism, German Imperialism had an eye on it. And the main foreign policy which they called ‘Eastern Question’ since 1700s was in fact a question of sharing Ottoman, Iran and China, friends, as Lenin and Stalin expressed. Those imperialists have adopted foreign policies for 200 years to accomplish this sharing.

Imperialists Attack Peoples by False Reasons

It’s the jamiest or easiest way to allege an excuse and wage war against a country for the imperialists. Allying an excuse to declare war is an issue of ‘Why did you muddy my water?’

They hit Iraq.

What did they say?

There are weapons of mass destruction.

However, today, Georges Tennesse, the director of CIA then confesses clearly in his book: ‘ **We knew there weren’t weapons of mass destruction such and such in Iraq. The governors of the USA deceived the world on this issue.**’

Alan Greenspan who has headed USA Central Bank for 18 years says: ‘**The war in Iraq and the Invasion of Iraq is for oil.**’

An imperialist authority who has headed USA Central Bank for such a long time says this.

Imperialists are such rascals. They allege an excuse and attack...

And unfortunately humanity has regressed so much after the collapse of Socialist Bloc that no one arises and spits in this coward’s face. Let’s not say no one, Cuban Comrades, Venezuelan, Bolivian Comrades spit. Bush and Condoleezza Rice cowards can’t hold their heads high in the congresses of Latin American countries. Our comrades address them in a manner they deserve. But, unfortunately, the rest of the world hasn’t responded to this awakening, yet.

For example ours... the newly elected ‘Rose’ of EU and USA (that is Abdullah Gül) praises the USA and her armies to the skies:

‘**The USA shouldn’t leave Iraq.(...) America is absolutely on the right way. In the last 50 years Americans sacrificed their own children the most in the world for the world peace.**’ (16th May, 2006) says he unblushingly. We are unfortunately under the power of such governors. Unfortunately...

Che Is Just Who He Is

Che’s another important characteristic, friends:

You should be what you are.

Che never beats about the bush. He doesn't hedge. He makes no secret of what he thinks on anything. He never utters anything he doesn't believe. His expressions are open and clear. Che is just who is. Therefore, he is loved, he is admired. One of the reason he is loved and he isn't forgotten is this. He wears his heart on his sleeve. You can't find lies in Che. And in Cuban comrades, too.

Fidel says:

‘Not a single person has agonized in Cuba since 1959.’

Yes. No one can disprove it.

Is there a leader who can say it in the bourgeoisie world?

Of course Democratic People's Republic of Korea, led by Kim Il Sung and Yong Il Sung follows such a revolutionary line. Let's not skip without mentioning it.

Vietnamese comrades, unfortunately, can't set a good example... Of course there is still a socialist economy, but they can't wave the flag of socialism bravely in political terms. Today, they can't follow a line that fits their glorious past...

Socialism is still dominating in economy in China. But there is a great comedown at the same time. Great comedown... They can't act honourably in front of the imperialists. They can't conserve honour of socialism, their country and humanity. They are in a dangerous direction...

Common Ground that ‘Pro-Sevres False Left’ and ‘The Likes of Tayyip’ Met: Americanisation

Now let's mention a second one of the current issues, friends:

The leader of ÖDP(Freedom and Solidarity Party) Ufuk Uras became a member of parliament with the support of Americanist Kurdish Movement having bourgeois class identity, you know.

AKP(Justice and Development Party) and MHP (The Nationalist Movement Party), Americanist Kurdish Movement and branches of Pro-Sevres False Left that entered the parliament allied with each other on the election of Abdullah Gül's presidency. They allied with each other upon the Americanism common theme. If they hadn't attended the parliamentary sessions, Gül wouldn't have been elected. 367 quorum wouldn't have been met, the session of the parliament wouldn't have opened and Gül couldn't have been elected.

They are so called that much opposite parties, movements in ideology, on the surface...

How did they come together, friends? How did MHP, DTP (Democratic Society Party-Kurdish bourgeoisie Party), ÖDP and SDP(Socialist Democracy Party) meet?

They met at Americanism common denominator.

We don't call them Pro-Sevres False Left in vain.. On this issue, all of them dropped behind CHP(Republican People's Party). Because they are so-called leftists.

Take Ufuk Uras , for example.

He is among those who congratulated Gül, you know, don't you? He is one of them.

They meet Tayyip and chat like shopkeepers. Tayyip says: 'You've put on weight.' And he smiling, overjoyed says: 'We are globalising.'

(Laughter...)

I mean, these are so ordinary, shabby talks.

(Laughter...)

He also says some important things. A journalist asks:

Do you approve the policy of the Cuban leader Castro? Do you admire him?’

He answers:

‘I prefer a democratic, pluralist formation. I prefer a structure where there is the freedom of press and in which political parties are free. That’s why I have no private admiration for one party regimes.’

It goes on, but...

It’s disgusting, friends. It sticks in our craw to read those lines.

There have been parties claiming to be socialist, saying these kind of things.

Where are they now?

Other parties of Socialist Bloc... Gorbachov also twaddled such things on the eve of the collapse of Socialist Bloc, didn’t he?

How did it end in?

What does pluralist party mean when there is the proletariat in power? What is it to let a bourgeois party, friends?

Will you organize socialist economy or still make class struggle against the bourgeoisie?

Or will you make political struggle?

Of course, class struggle will continue in different ways secretly until all classes disappear totally. During the Proletariat Dictatorship class struggle continues. But it is apart. While continuing this, you are going to say to the bourgeoisie, legally: ‘OK. Confront me, let’s struggle. Let’s make collusion...’

This is ridiculous! No serious revolutionary can say such a thing.

Moreover, friends, it is said that there is no opposition in Cuba...

There is the chiefbandit of the world 90 miles off Cuba.

(Applause...)

Isn't it opposing with her army, satellites, radio and televisions and with catty spies, friends? Hasn't she opposed for 40 years? Isn't she opposing Cuba with economic blockage she is sustaining vilely?

But he is buffoon...can't understand these...False Left!..

He mentions the freedom of press. He wants something that supports counter-revolution.

Who possesses media in our country?

Barons-moneybags.

Under the possession of a few holding companies.

What do they support?

Their own class interests. Were we mentioned on any TV channels, comrades?

No, we weren't and we aren't going to be!..

Our videos are sometimes displayed. But our name is never mentioned. And our videos are displayed inevitably with our activities. Our name is never mentioned...

Where is the freedom of press?

They don't mention even one of our tens of demonstrations.

What happened to freedom of press?

They are all the same newspapers! Newspapers which look work for the same class interests. No big deal to have a lot of names.

Well, Labour Class is in power in Cuba. Whose money will be used to publish a newspaper defending exploitation?

Who will finance it?

CIA, America, EU will, won't they?

You will take money from America, EU or Soros... And you will supposedly publish an opposing newspaper. And Fidel and Cuban comrades will let this, is it?

Oh poor fellow!.. Is everybody buffoon like you?..

(Applause...)

When we called them False Left, they say we affront them.

No, friends!

Does America announce them as 'source of hope' for nothing? Is she idle?

They have tens of think tanks. Thousands of spies, research assistants, so-called scientists, experts... Don't they know their soul?

They know. Because of that they announce them as 'democracy forces' , 'source of Hope'. Of course!..

And so they announce us as their enemy because we know everything of this coward and oppose her!..

One of the listeners: They are assumed as 'democracy forces' and we are seen as 'chauvinist'.

Nurullah Ankut: Yes, yes...

We also agree with Cuban Comrades on The Kurdish Issue

We said that we were of the same opinion on many original issues in Turkey with our Cuban Comrades.

We are of the same opinion on Kurdish Issue, too.

According to us, Kurdish Issue is the most important political issue of Turkey.

Our book titled 'Don't Lie, Uğur Mumcu, We Are Coreligionists' was published in 1995. There we commented on Kurdish Movement, recent PKK (The Kurdish Labour Party) Movement as follows: 'An anti-imperialist petite bourgeoisie movement fighting for National Independence.'

It's written exactly the same in our book.

We said 'They are giving an anti-imperialist struggle, it's a moral duty of every democrat to support this'.

However, a movement can't move on a small bourgeois line. Unavoidably, it is to get into orbit of one of today's main classes. It will inevitably end in one of two results:

It will get into the orbit of the proletariat, or the bourgeoisie.

A petite bourgeois movement can't be accomplished today. It can't be succeeded in the 20th century. Because petite bourgeoisie is not a basic class. It's not a basic class like the proletariat or the bourgeoisie playing a role directly in dominant production method. It's a middle class. It's a middle layer. In this regard, it can't maintain a movement decidedly and accomplish.

Socialist Bloc collapsed in 1991. After that, PKK movement shifted its grounds to the bourgeoisie and the USA. The leader of this movement began to send his regards to the USA in his talks with CIA agents in Bekaa. We wrote them, they were all written. 'I send my respects. I'm not a Marxist-Leninist.' said he. He defined himself as a socialist in the line of European Socialists (their names are socialist), in the line of Tony Blair's etc. parties. He defined himself as he was harmless. And it's clear today

where it has reached, friends: He decided in a bourgeois line. And the movement orbited in an Americanist line. Its name is Americanist Bourgeois Kurdish Movement. Its name is clearly this.

At that time we said we had nothing to do with that movement. We can't act together with an Americanist movement. In no way can we league together.

Then, we said that it was necessary to establish a Communist Kurdish Movement.

We solved Kurdish Issue in 1933. Here is our book...

Communist Kurdish Movement, which is to be established, is going to follow the line of International Proletariat movement. Because Lenin says, National Issue is secondary for communists. What is primary is the cause of International Proletariat Movement and its benefit.

Then, such a Kurdish Movement will, first of all, be against the USA and EU imperialists. It would stick to sister peoples in the region. It would be an ally to Anti-imperialist, Anti-colonialist, Anti-chauvinist Salvation Movements of Peoples. And when victory is gained with these movements, circumstances for solving Kurdish National Issue freely will have been created.

We, as communists, say that we are in favor of voluntary togetherness. We have been living fraternally for a thousand years. We had collaborated when making these lands a 'homeland', we had struggled together against Byzantine, against Romen Diyojen. Islam Historians write this.

At that time, we were a folk becoming a classed society newly and settled down newly, too. At the time of Alparslan's victory... At the time of Tuğrul Bey, Alparslan's uncle, Oghuz Turks began to settle down. Before that they were a nomadic population in Middle Stage of Barbarism.

Due to this fact, we don't have any historians, literates at that time. There are Islam historians, Byzantian historians, Armenian historians and Syrian historians who tell about those wars.

We had struggled together. We wish to live together brotherly, freely and equally again. We set our hearts for it. But they are our Kurdish brothers and sisters who will decide freely. If they make a declaration of intention accordingly to our desire, we'll live brotherly. If they don't, we draw apart... All hell didn't break loose. And we can exist side by side, brotherly. This is what we say. Our solution for Kurdish Issue is this and this is our point of view.

We tell it everywhere clearly. We never beat about the bush. Our words are short, clear and to the point. Each of our thesis, each of our words is easily comprehensible for both well-educated comrades and for junior friends who got a basic education.

This is our point of view on Kurdish Issue, friends.

But they think that they defend Kurdish Movement, Kurdish Issue by logrolling Americanist Kurdish Movement.

But it isn't! Their common denominator is Americanism! What they all do is Americanism... This is what throws them together. They unite under that denominator.

Now let's talk about Fidel's words on Kurdish Issue:

A committee headed by Gürbüz Çapan, the Mayor of Esenyurt, goes to Cuba, friends. Year 1994. They meet with Fidel. And Kurdish Issue is mentioned. Fidel says:

'I keep a close watch on events in Turkey. I hope and wish that Kurdish Movement there doesn't become Yankee's (the USA's) petroleum custodian.'

He puts it so right, friends, doesn't he?

Unfortunately, the current situation of this movement is what Fidel wants to beware: Being Yankee's Petroleum Custodian!

Murat Karayılan says to Newsweek interviewer:

‘We can be an ally to the USA, our enemy is the same.

‘USA has always seen us through our enemy’s eye. But we wish to be perceived as friend. Our seven thousand armed militants can be an ally to the USA against Islamic Radicalism.

‘Unlike Turks, Kurds are sympathizers of the USA much more. Their tendency is towards Americanism.’

As a matter of fact, three thousand Iraqi Kurd peshmarga wages war on patriots resisting the invasion.

And again Murat Karayılan says in a speech he made in Barzani’s ‘Kurdistan TV’ on October 24th, 2006:

‘Let the USA government make a project based on all countries in which Kurds live.’

He makes this offer to the USA.

What does it mean?

OK, you not only came to Iraq and saved Kurds, come to Turkey, too, and we shall form an alliance with you, save us, too. Establish a state for us, too’. This is what he tries to say.

What does Zübeyir Aydar, the representative of PKK in the political arena in Europe, say?

‘America is our friend coming from afar.’

Clear!..

‘In general we find what she performed in the Middle East positive’

Now, isn’t it an Americanist Movement following a bourgeois line?

Yes! Clear!..

Is it possible to deny?

No. After all, the vast majority of the grassroots of the movement supports the USA openly, we always witness it.

How can a revolutionary form an alliance with them?

No, friends, this is not the way to look at the National Issue, Kurdish Issue, it's not.

Like all issues, Kurdish Issue has a **revolutionary, reactionary and bourgeois solution**.

Today, the solution which PKK supports is the bourgeois solution.

We are in favor of the revolutionary solution and set forth it.

Is Kurdish Movement in Iraq, led by Talabani, Barzani free?

No, there is no such thing. Once it was under the hegemony of Saddam, now, it's under the hegemony of the USA. Under the exploitation of the USA companies...

Where is freedom?..

No, friends, a revolutionary doesn't see like this.

Here is Che's vision, Fidel's vision, friends.

Our route has always been the revolutionary route, no one can deflect or sidetrack us!

Because of this, we and our Cuban comrades can understand each other very well.

We are the sole real Marxist-Leninist Movement of Turkey.

(Applause...)

Our director friend says we have overrun the time. I have become a bit long-winded. . Excuse me, comrades.

The left winds blowing from Latin America will inevitably cover that continent and then the Ancient World, friends.

People aren't beasts of burden!

If it were, humanity would have stuck in Slavery Societies. They all collapsed one by one...

USA bandits will also collapse!

And as Fidel and Che say; **'Humanity will be a single socialist country, sooner or later.'**

(Applause...)

This is inevitable.

We are people, we are right, we will win!

Venceremos!

(Applause...Slogans...Damn Imperialism...Long Live Socialism...Viva Cuba...Viva Socialismo...Comrade Che is Immortal...El Pueblo Unido Jama's Sera Vencido!..)

Comrade Sait Kiran: Comrades, we would like to give thanks to the representative of Cuba Socialism, esteemed Ambassador Ernesto Gomez Abascal, and the Leader of People's Liberation Party, Nurullah Ankut.

Now we will have a break for twenty five minutes and then our program will continue at a quarter to seven. Our dear estimable folk music artist İsmail Hakkı Demircioğlu will be with us.

İsmail Hakkı Demircioğlu: Our friends mentioned very appealing subjects. It was illuminating in respect of understanding both history and today, for me, too. It lasted a bit long, yet it could have lasted longer. I mean it wasn't boring at all.

(Applause...)

My voice isn't good enough due to sleeplessness and I came a long way. For this reason, I will sing from various bards and various regions, in a short concert not to make a long program.

Like revolutionaries in the world, perhaps people who melodised ballads composed and sang for a more beautiful world. In this respect ballads show parallelism with what is told today.

I will sing one another, I won't announce.

Comrade Sait Kıran: Distinguished Friends, on behalf of our Party, I want to give thanks to our esteemed folk music artist İsmail Hakkı Demircioğlu.

He, showing a solidarity sample, staged for free and contributed to our activity in which we commemorated Comrade Che on the 40th anniversary of his death. I wish to thank him on behalf of our Party.

There will be a documentary show to which authorities from Cuban Embassy will attend in our party building on October 9th at seven p.m. We invite our comrades, friends living in Ankara.

Our program has come to an end. We thank you all for participating and contributing.

(Applause...)
